المقدمة

مرحبًا بك في هذا الكتاب الاحترافي الذي يضم 100 برومبت معماري جاهز للاستخدام مع برامج الذكاء الاصطناعي.

تم تصميم هذا الكتاب خصيصًا لتحويل أي سكيتش معماري أو مخطط ضعيف إلى ريندر معماري فوتورياليستي 8K بجودة احترافية، دون تغيير التصميم الأصلي لأي مشروع.

كل برومبت في الكتاب مفصل بعناية ليتيح لك التحكم في الخامات، التشطيبات، الأثاث، الإضاءة، والبيئة المحيطة، لتخرج بنتيجة مذهلة قابلة للاستخدام في العروض المعمارية، المشاريع التعليمية، أو التسويق العقاري.

طريقة الاستخدام

- اختر السكيتش أو المخطط الخاص بك لأي مشروع معماري.
- عدّل أي إعدادات للرؤية النهائية مثل زاوية الكاميرا أو الإضاءة، إذا رغبت.
- انسخ البرومبت المناسب من هذا الكتاب.
- الصق البرومبت مع الصورة المراد عمل ريندر لها في احد برامج الذكاء الاصطناعي المفضل لديك
- استمتع بالنتيجة: ريندر معماري احترافي بدقة 8K دون أي تغيير في التصميم الأصلي.

أقسام الكتاب

الفصل الأول: الفلل – 20 برومبت
- فلل بتشطيب رخامي فاخر
- فلل بتشطيب حجر طبيعي
- فلل بواجهات خشبية
- فلل بإضاءة ليلية
- فلل بتصميم داخلي فاخر

الفصل الثاني: العمائر السكنية – 20 برومبت
- عمائر زجاجية حديثة
- عمائر بالحجر الطبيعي
- عمائر بإضاءة ليلية
- عمائر بمساحات مشتركة فاخرة
- عمائر مع شرفات متنوعة

الفصل الثالث: المساجد – 5 برومبت
- مسجد بتشطيب رخامي فاخر
- مسجد بتشطيب حجر رملي
- مسجد أبيض تقليدي
- مسجد بإضاءة ليلية
- مسجد بتصميم حديث مع زجاج

الفصل الرابع: الفنادق – 5 برومبت
- فندق بتشطيب رخامي فاخر
- فندق بواجهة زجاجية عصرية
- فندق بحجر طبيعي
- فندق بإضاءة ليلية
- فندق داخلي فاخر

الفصل الخامس: المنتجعات السياحية – 5 برومبت
- منتجع بواجهات حجر طبيعي
- منتجع بواجهات خشبية
- منتجع بيضاء متوسطية
- منتجع بإضاءة ليلية
- منتجع داخلي فاخر

الفصل السادس: الكوفي شوب – 5 برومبت
- كوفي شوب خشبي
- كوفي شوب بأسلوب صناعي
- كوفي شوب مودرن أبيض
- كوفي شوب بإضاءة ليلية
- كوفي شوب فاخر

الفصل السابع: المطاعم – 5 برومبت
- مطعم بواجهة حجر
- مطعم مودرن
- مطعم بإضاءة ليلية
- مطعم خشبي
- مطعم فاخر جداً

الفصل الثامن: مباني المكاتب – 5 برومبت
- مبنى مكاتب زجاجي
- مبنى مكاتب بتشطيب حجر
- مبنى مكاتب مودرن
- مبنى مكاتب بإضاءة ليلية
- مبنى مكاتب فاخر

الفصل التاسع: المولات التجارية – 5 برومبت
- مول بواجهة زجاجية
- مول فاخر رخامي
- مول حديث
- مول بإضاءة ليلية
- مول مع مساحات خضراء

الفصل العاشر: المدارس – 5 برومبت
- مدرسة حديثة
- مدرسة بواجهة حجر
- مدرسة بيضاء
- مدرسة صباحية
- مدرسة مع ساحات خضراء

الفصل الحادي عشر: المستشفيات – 5 برومبت
- مستشفى حديث
- مستشفى زجاجي
- مستشفى أبيض نظيف
- مستشفى بإضاءة ليلية
- مستشفى فاخر حديث

الفصل الثاني عشر: المكتبات – 5 برومبت
- مكتبة حديثة
- مكتبة خشبية
- مكتبة مودرن
- مكتبة بإضاءة ليلية
- مكتبة كلاسيكية

الفصل الثالث عشر: المباني العامة – 10 برومبت
- مركز ثقافي
- مركز مؤتمرات
- متحف حديث
- متحف كلاسيكي
- قاعة معارض
- مركز مجتمع
- مبنى حكومي
- قاعة احتفالات
- مركز فنون
- مبنى معماري فاخر

الفصل الاول

الفلل السكنية

فيلا بتشطيب داخلي وخارجي خشبي مودرن

PROMPT

Transform the uploaded sketch into a modern luxury villa with natural wood exterior cladding and warm wooden interior finishes. Keep all architectural dimensions, window placements, and overall layout unchanged. Interior: wooden flooring in living and dining areas, wooden paneling on walls, wood-accented ceiling beams, modern minimalist wooden furniture including sofas, chairs, tables, cabinets. Lighting: soft daylight through large windows, warm artificial lights highlighting wooden textures. Exterior: wooden terraces, wooden pergolas, outdoor seating, planters with greenery. Add subtle human-scale activity: family sitting in living area, children playing outdoors, pets. Include realistic reflections on glass surfaces, shadows across wooden floors, depth-of-field for cinematic effect. Camera: wide-angle interior, aerial overview, street-level facade. Output: ultra-realistic, photorealistic 8K render.

فيلا بحجر طبيعي فاخر

PROMPT

Convert sketch into luxury villa with stone exterior cladding and marble interior finishes, keeping all structural design unchanged. Interiors: marble floors, stone accent walls, luxurious modern furniture with leather and fabric upholstery, elegant chandeliers, detailed ceilings. Exterior: stone walls, stone-paved terraces, garden with decorative stones, water fountain. Lighting: daylight casting dynamic shadows on stone textures, ambient artificial lighting in evenings. Add human activity: family walking, guests at terrace, staff attending garden. Reflections on marble and glass surfaces realistic, shadows soft and natural. Camera: wide-angle interior shots, aerial perspective, street-level facade. Output: ultra-realistic, cinematic 8K render.

فيلا مع طلاء أبيض داخلي وزجاج خارجي

PROMPT

Transform sketch into modern villa with white exterior walls and all-glass facades, interior walls painted bright white. Keep architectural design intact. Interiors: white polished floors, minimalist white furniture, glass tables, sofas with fabric cushions, decorative plants. Exterior: glass terrace balustrades, balcony with outdoor lounge, poolside seating. Lighting: bright daylight streaming through glass walls, soft interior accent lights, reflections on glass and polished surfaces. Human-scale activity: family interacting indoors, children outdoors, pets near pool. Camera: aerial view, wide-angle interior, facade street perspective. Output: ultra-realistic, cinematic, professional-quality 8K.

فيلا بمزيج خشب وحجر داخلي

PROMPT

Convert sketch into villa with combined wooden and stone interior finishes, exterior remains unchanged. Interiors: wooden flooring in living and dining, stone accent walls, modern wooden furniture mixed with stone textures, contemporary lighting fixtures. Exterior: wooden pergolas, stone pathway, landscaped garden. Lighting: daylight highlights material textures, soft interior warm lights, realistic shadows. Add human activity: family relaxing in living area, children on terrace, pets. Reflections: polished floors, glass doors, pool water. Camera: interior wide-angle, aerial overview, facade street-level. Output: ultra-realistic 8K cinematic render.

فيلا بأسلوب مودرن داكن

PROMPT

Transform sketch into modern villa with dark-toned interior finishes while keeping original architecture. Interiors: dark wooden floors, matte black kitchen cabinets, dark leather sofas, metallic fixtures, ambient ceiling lights. Exterior: neutral-colored walls, dark wooden terrace, minimal landscaping. Lighting: soft daylight creating subtle shadows, warm artificial lights enhancing dark interiors. Add human-scale activity: family reading, children playing indoors, subtle outdoor presence. Reflections on polished surfaces, glass windows, and furniture. Camera: wide-angle interior, aerial perspective, facade view. Output: ultra-realistic, cinematic 8K render.

فيلا بأسلوب لوفت صناعي

PROMPT

Convert sketch into villa with industrial loft style interior finishes, architecture unchanged. Interiors: exposed concrete floors, brick accent walls, metal beams, open-plan living room with industrial furniture, kitchen with steel appliances, modern lighting fixtures. Exterior: simple facade, concrete terrace, minimalist outdoor seating. Lighting: daylight through large windows, ambient artificial lighting highlighting industrial textures. Human activity: residents working in living room, children playing, pets nearby. Reflections on glass, metallic surfaces, shadows realistic. Camera: wide-angle interior, aerial overview, facade street perspective. Output: ultra-realistic 8K render.

فيلا بتشطيب داخلي فاخر مع إضاءة ليلية

PROMPT

Transform sketch into luxury villa with high-end interior finishes and dramatic night-time lighting, keeping structure unchanged. Interiors: polished marble floors, wooden wall panels, designer furniture, chandeliers, soft indirect lighting. Exterior: terraces with ambient lights, landscaped garden with subtle illumination. Lighting: warm indoor lighting, subtle outdoor spotlights, reflections on glass and water surfaces. Human-scale activity: family interacting indoors, children playing outside, staff maintaining garden. Camera: aerial night view, wide-angle interior, facade perspective. Output: ultra-realistic, cinematic, professional 8K.

فيلا مع أثاث عصري ملون

PROMPT

Convert sketch into villa with modern colorful furniture and interior accents, design unchanged. Interiors: bright sofa sets, colorful cushions, decorative wall panels, wooden floors, glass tables, vibrant rugs. Exterior: neutral facade, terrace with colorful outdoor seating, planters. Lighting: natural daylight, warm indoor lighting, realistic shadows and reflections. Human activity: family interacting with colors, children playing, pets. Camera: wide-angle interior, aerial perspective, facade view. Output: ultra-realistic 8K cinematic render.

فيلا مع أثاث كلاسيكي فاخر

PROMPT

Transform sketch into villa with classic luxury interior furnishings, keeping original architecture. Interiors: marble floors, antique-style wooden furniture, chandeliers, draped curtains, wall moldings, decorative rugs. Exterior: neutral walls, terrace with classical seating, manicured garden. Lighting: daylight and warm interior lighting, soft shadows, realistic reflections. Human-scale activity: family reading, children playing outdoors, staff attending garden. Camera: wide-angle interior, aerial view, facade street-level. Output: ultra-realistic 8K render.

فيلا بأسلوب مستقبلي داخلي وزجاجي

PROMPT

Convert sketch into villa with futuristic metallic and glass interior finishes, design unchanged. Interiors: sleek angular furniture, integrated LED lighting panels, open-plan living, bedrooms, bathrooms. Exterior: terraces with glass balustrades, minimalist landscaping, reflective pool. Lighting: daylight with soft shadows, futuristic ambient lights inside and outside, reflections on glass and metal surfaces. Human activity: residents interacting, children playing indoors, pets. Camera: aerial overview, wide-angle interior, facade street perspective. Output: ultra-realistic 8K cinematic render with futuristic atmosphere.

فيلا بأرضيات رخامية فاخرة

PROMPT

Transform the uploaded sketch into a modern luxury villa with polished marble floors throughout the interior, while keeping the architectural design unchanged. Include living room, dining area, bedrooms, bathrooms, and corridors, all with marble textures and glossy finishes. Interior furnishings: plush sofas, elegant coffee tables, decorative rugs, marble countertops in kitchen, metallic light fixtures. Exterior: neutral-colored facade, marble-accented terrace, outdoor seating, landscaped garden with flowerbeds. Lighting: natural daylight casting soft reflections on marble, subtle warm artificial lights at night highlighting textures. Add human activity: family sitting in living room, children playing outdoors, pets. Camera: wide-angle interior, aerial view, street-level facade. Output: ultra-realistic, cinematic, professional 8K render.

فيلا بأسلوب خشبي داكن فاخر

PROMPT

Convert sketch into villa with dark wood interior finishes and wooden exterior accents, design unchanged. Interiors: dark hardwood floors, wall panels, wooden ceiling beams, wooden furniture with leather upholstery, modern lighting fixtures. Exterior: wooden terrace, pergola, small garden with shrubs, subtle outdoor lighting. Lighting: daylight streaming through large windows, warm interior lamps casting soft shadows. Human-scale activity: family interacting indoors, children playing on terrace, pets. Reflections: polished wooden surfaces, glass doors, subtle pool reflections. Camera: aerial view, wide-angle interior, facade street perspective. Output: ultra-realistic 8K render.

فيلا مع أثاث مودرن أبيض

PROMPT

Transform sketch into villa with modern all-white interior furnishings, keeping architectural design intact. Interiors: white glossy floors, minimalist white sofa sets, glass tables, decorative plants, white cabinetry in kitchen. Exterior: neutral white facade, terrace with white outdoor furniture, simple landscaped garden. Lighting: daylight creating soft shadows, interior accent lighting highlighting furniture. Human activity: family reading, children playing, pets. Reflections on glass and polished surfaces realistic. Camera: wide-angle interior, aerial perspective, facade street view. Output: ultra-realistic, cinematic, professional 8K render.

فيلا بأسلوب لوفت
مع أثاث معدني

PROMPT

Convert sketch into villa with industrial loft interior finishes, furniture and lighting changed only. Interiors: exposed concrete floors, brick walls, metal staircases, metallic furniture, steel kitchen appliances, industrial lighting. Exterior: terrace with metallic furniture, concrete paving, minimalist landscaping. Lighting: daylight with soft shadows, ambient industrial interior lights. Human activity: residents walking indoors, children playing, pets. Reflections on glass, metal, polished floors. Camera: wide-angle interior, aerial overview, facade street-level. Output: ultra-realistic 8K cinematic render.

فيلا بحجر طبيعي فاخر

PROMPT

Transform sketch into villa with classic dark wooden furniture and rich interior textures, architectural design fixed. Interiors: polished wooden floors, antique-style cabinets, dark leather sofas, decorative rugs, chandeliers. Exterior: neutral facade, terrace with classic seating, small landscaped garden. Lighting: daylight highlighting furniture textures, warm interior lamps casting realistic shadows. Human activity: family interacting indoors, children playing outdoors, staff attending garden. Reflections on polished surfaces, glass, and water. Camera: wide-angle interior, aerial view, facade street-level. Output: ultra-realistic 8K render.

فيلا بألوان مشرقة وأثاث عصري

PROMPT

Convert sketch into villa with vibrant interior colors and modern furniture, keeping structure unchanged. Interiors: colorful sofas, cushions, glass tables, decorative wall panels, wooden floors. Exterior: neutral facade, terrace with bright seating, planters. Lighting: daylight creating soft shadows, ambient interior lights emphasizing colors. Human activity: family interacting, children playing, pets. Camera: wide-angle interior, aerial perspective, facade street-level. Output: ultra-realistic 8K cinematic render.

فيلا بإضاءة طبيعية مكثفة

PROMPT

Transform sketch into villa emphasizing natural light throughout interior spaces, design intact. Interiors: wooden floors, neutral-colored walls, glass tables, modern sofas, minimal furniture. Exterior: neutral facade, terrace with seating, landscaped garden with trees. Lighting: daylight flooding through windows, realistic shadows and reflections on floors and glass surfaces. Human activity: family enjoying natural light, children playing, pets. Camera: wide-angle interior highlighting sunlight, aerial overview, facade perspective. Output: ultra-realistic 8K render.

فيلا مع أثاث فاخر مودرن

PROMPT

Convert sketch into villa with high-end modern furniture, keeping original architecture. Interiors: polished marble floors, modern sofas, glass tables, designer kitchen cabinets, lighting fixtures. Exterior: terraces with elegant outdoor furniture, pool, landscaped garden. Lighting: daylight with soft shadows, ambient warm interior lighting. Human activity: family interacting indoors, children outdoors, pets. Reflections: glass, marble, polished surfaces. Camera: wide-angle interior, aerial perspective, facade street view. Output: ultra-realistic 8K render.

فيلا بأسلوب طبيعي
مع أثاث خشبي فاتح

PROMPT

Transform sketch into villa with light natural wood interiors and eco-friendly furniture, architectural design unchanged. Interiors: wooden flooring, light wood paneling, sofas with fabric cushions, natural-colored tables, indoor plants. Exterior: terrace with wooden seating, garden with native plants. Lighting: daylight casting soft shadows, warm interior lights highlighting textures. Human activity: family walking, children playing, pets. Reflections: wood, glass, water. Camera: wide-angle interior, aerial overview, facade street-level. Output: ultra-realistic 8K cinematic render.

فيلا بأسلوب فاخر معدني وزجاجي

PROMPT

Convert sketch into villa with metallic and glass interior finishes, modern luxury furniture, design fixed. Interiors: sleek metallic furniture, glass tables, polished concrete floors, ambient LED lights, smart home features. Exterior: terrace with glass balustrades, reflective pool, minimalist landscaped garden. Lighting: daylight and artificial accent lights, realistic reflections on glass, metal, and water surfaces. Human activity: residents interacting, children playing, pets. Camera: aerial overview, wide-angle interior, facade street-level. Output: ultra-realistic 8K cinematic render.

الفصل الثاني

العمائر السكنية

عمارة بتشطيب حجر طبيعي فاخر

PROMPT

Transform the uploaded sketch of the residential apartment building into a highly realistic architectural render while keeping the exact architectural design, structure, proportions, windows, balconies, and layout completely unchanged. Only enhance the exterior finishes and interior lobby materials. Apply luxurious natural stone cladding on the facade with subtle texture variations and elegant stone detailing around windows and balconies. Use glass balcony railings and metal accents for modern refinement. Design a welcoming entrance lobby with polished marble flooring, stone walls, modern reception desk, comfortable seating, decorative plants, and warm ambient lighting. Add realistic urban context such as paved sidewalks, street lamps, parked cars, and subtle landscaping. Include people entering the building and residents on balconies for human scale. Lighting should be soft daylight with realistic shadows and reflections on glass surfaces. Camera angle: street-level perspective and slight aerial view. Render style: ultra realistic, architectural visualization, 8K resolution, cinematic lighting, photorealistic materials.

عمارة بواجهة خرسانة حديثة

PROMPT

Transform the sketch into a modern residential apartment building while maintaining the original architectural structure and design exactly as it is. Modify only the finishing materials. Apply smooth exposed concrete facade textures combined with dark aluminum window frames and glass balcony railings. Interior lobby design should include polished concrete floors, minimalist seating, indoor plants, and modern lighting fixtures. Add subtle exterior landscaping with trees and urban pavement. Include realistic environmental context such as pedestrians walking, parked cars, bicycles, and street lighting. Lighting should simulate bright daylight with soft natural shadows highlighting the concrete texture. Include reflections on windows and balcony glass. Camera perspective should emphasize the facade depth and balconies. Final output should look like a professional architectural render created by a high-end visualization studio in ultra realistic 8K quality.

عمارة بواجهة زجاجية عصرية

PROMPT

Convert the uploaded sketch of the residential building into a luxury modern glass facade apartment building while preserving the exact architectural form and layout. Only upgrade the finishing materials and decorative elements. Use large reflective glass panels combined with light aluminum cladding between floors. Balcony railings should be frameless glass with sleek metal handrails. Design an elegant lobby with glossy marble floors, glass walls, modern lounge furniture, and indoor greenery. Exterior environment should include landscaped sidewalks, decorative lighting, parked vehicles, and subtle street activity. Lighting should simulate golden hour sunlight reflecting on the glass facade and creating cinematic reflections. Add residents standing on balconies and people entering the building. Render perspective should include street-level view and slightly elevated view. Final image should be photorealistic architectural visualization, cinematic lighting, extremely detailed 8K render.

عمارة بواجهة خشب ومعدن

PROMPT

Transform the sketch into a residential building visualization with modern wood and metal facade finishes, keeping the entire architectural design identical. Apply vertical wooden panels combined with dark metal frames around windows and balconies. Balcony railings should combine wood panels and glass elements. Interior lobby finishes should include wooden wall panels, polished stone floors, minimalist furniture, pendant lighting, and decorative plants. Exterior environment should include trees, paved walkways, street lamps, and subtle landscaping. Add people walking near the entrance and residents standing on balconies to create a sense of life. Lighting should be soft daylight highlighting wood textures and metal reflections. Camera perspective should focus on the facade materials and balcony depth. Final output must be ultra realistic architectural rendering in 8K resolution with cinematic lighting and photorealistic materials.

عمارة بواجهة كلاسيكية فاخرة

PROMPT

Transform the residential building sketch into a classic luxury apartment facade while keeping the exact building structure unchanged. Apply elegant beige stone cladding with decorative moldings around windows and balconies. Balcony railings should be wrought iron with ornamental patterns. The entrance lobby should feature marble flooring, classical columns, chandelier lighting, luxury seating, and elegant wall details. Exterior environment should include landscaped gardens, decorative street lights, parked luxury cars, and people entering the building. Lighting should simulate warm late afternoon sunlight creating soft shadows and highlighting the classical details. Camera angle should emphasize symmetry and facade elegance. Final result should be a high-end architectural visualization, extremely detailed, photorealistic 8K render.

عمارة بتشطيب أبيض مودرن

PROMPT

Transform the uploaded building sketch into a minimalist white modern apartment building, preserving the exact architectural form. Apply smooth white plaster finishes with subtle texture variation. Balcony railings should be glass with minimal metal framing. Interior lobby design should include white marble floors, modern seating, indoor plants, and warm lighting. Exterior environment should include trees, clean sidewalks, bicycles, parked cars, and subtle street activity. Lighting should be bright daylight emphasizing the clean white facade and creating soft shadows. Include residents on balconies and pedestrians entering the building. Camera perspective should highlight the clean modern aesthetic. Final output must be ultra realistic architectural render in 8K resolution.

عمارة بتشطيب طوب أحمر

PROMPT

Transform the residential building sketch into a contemporary red brick apartment building while keeping the original architectural design exactly the same. Apply textured red brick cladding across the facade with subtle variations in brick tone. Balcony railings should be dark metal frames with glass inserts. Interior lobby should feature brick accent walls, polished stone floors, modern seating, and industrial-style lighting. Exterior environment should include trees, street pavement, parked bicycles, and urban details. Lighting should simulate natural daylight highlighting the brick textures. Add residents walking near the entrance and people visible on balconies. Camera perspective should emphasize facade depth and brick details. Final output should be ultra realistic architectural render in cinematic 8K quality.

عمارة بواجهة داكنة فاخرة

PROMPT

Transform the uploaded building sketch into a luxury dark facade apartment building while keeping the architectural design unchanged. Use dark stone or dark composite panels combined with glass balcony railings and metallic accents. Lobby interior should include polished dark marble floors, elegant seating, decorative lighting, and indoor plants. Exterior landscaping should include subtle lighting, paved walkways, and street furniture. Lighting should simulate evening ambiance with warm lights glowing from windows and balconies. Add people walking outside and residents visible on balconies. Camera perspective should emphasize dramatic lighting and facade contrast. Output should be ultra realistic night-time architectural visualization in 8K resolution.

عمارة بأسلوب طبيعي مع نباتات

PROMPT

Transform the residential building sketch into a modern apartment building with natural green facade accents while keeping the architecture unchanged. Add planter boxes on balconies with greenery and vertical garden elements between floors. Use light stone and wood finishes on the facade. Lobby interior should include wooden panels, natural stone floors, plants, and soft lighting. Exterior environment should include landscaped sidewalks, trees, and seating areas. Add residents watering plants on balconies and pedestrians walking nearby. Lighting should simulate soft morning sunlight highlighting the greenery and facade textures. Camera angle should emphasize balconies and vegetation. Final render should be ultra realistic architectural visualization in 8K resolution.

عمارة بواجهة رخام فاخر

PROMPT

Transform the uploaded residential building sketch into a luxury apartment building with marble facade finishes while keeping the exact architectural design, layout, windows, balconies, and proportions completely unchanged. Apply polished marble panels across the facade with subtle variations in texture and tone. Balcony railings should be transparent glass with elegant metallic handrails. Design an elegant entrance lobby with glossy marble flooring, decorative wall panels, luxury lounge seating, and warm ambient lighting. Add exterior details such as trees, paved sidewalks, street lamps, and parked vehicles. Include people entering and exiting the building to create a sense of scale and life. Lighting should simulate natural daylight with realistic shadows and reflections on glass and marble surfaces. Camera perspective should emphasize the facade and building entrance. Final output should be ultra realistic architectural visualization, cinematic lighting, photorealistic materials, 8K resolution.

عمارة بتشطيب معدني عصري

PROMPT

Transform the residential building sketch into a modern apartment building with sleek metallic facade panels, while preserving the entire architectural structure and proportions exactly as they are. Apply brushed aluminum panels between windows and balconies to create a modern urban aesthetic. Balcony railings should combine glass and black metal frames. Interior lobby should feature polished concrete floors, modern seating furniture, indoor plants, and minimal lighting fixtures. Add realistic urban surroundings such as sidewalks, bicycles, parked cars, and pedestrians. Lighting should simulate soft daylight reflecting on metallic surfaces and glass windows. Include residents standing on balconies and people walking near the entrance. Camera angle should highlight facade textures and balcony depth. Final render must appear like a professional architectural visualization created by a high-end studio in ultra realistic 8K quality.

عمارة بواجهة خرسانة ناعمة

PROMPT

Transform the uploaded sketch into a minimalist residential apartment building with smooth concrete finishes, keeping the architectural design completely unchanged. Use light gray concrete facade textures combined with large glass windows and simple balcony railings. The lobby interior should include polished concrete floors, minimalist furniture, simple lighting fixtures, and decorative plants. Add exterior landscaping such as trees, small shrubs, and urban paving elements. Include realistic human activity such as pedestrians entering the building and residents visible on balconies. Lighting should simulate clear daylight with soft shadows highlighting the concrete texture. Camera perspective should emphasize the facade geometry and building depth. Final result should be ultra realistic architectural render with cinematic lighting and 8K resolution.

عمارة بواجهة حجر رملي

PROMPT

Transform the residential building sketch into a modern apartment building with warm sandstone facade finishes, while keeping the entire building structure identical. Apply sandstone cladding with subtle texture variations and horizontal stone bands between floors. Balcony railings should be glass with bronze metal frames. Design a welcoming entrance lobby with stone walls, marble flooring, modern seating, and warm ambient lighting. Add landscaped sidewalks, street lamps, and decorative plants near the entrance. Include people walking near the building and residents standing on balconies. Lighting should simulate golden hour sunlight highlighting the warm stone colors and creating soft shadows. Camera angle should focus on the entrance and facade materials. Output should be ultra realistic 8K architectural visualization with photorealistic materials.

عمارة بواجهة بيضاء وخشب

PROMPT

Transform the uploaded residential building sketch into a modern white facade apartment building with wooden accents, keeping the original architectural design unchanged. Apply smooth white plaster finishes combined with vertical wooden panels around balconies and windows. Balcony railings should be glass with wooden handrails. Lobby interior should include wooden wall panels, stone flooring, modern seating furniture, and decorative plants. Exterior environment should include landscaped pathways, trees, and subtle street activity. Lighting should simulate bright daylight highlighting the contrast between white walls and wood textures. Add residents standing on balconies and people walking near the entrance. Final output should be ultra realistic architectural render in cinematic 8K resolution.

عمارة بواجهة زجاج وخشب

PROMPT

Transform the uploaded residential building sketch into a contemporary apartment building with glass and wood facade materials, keeping the entire architectural design unchanged. Use large reflective glass panels combined with natural wood cladding on balcony areas. Balcony railings should be frameless glass. The lobby interior should include wooden wall panels, polished stone floors, modern lounge furniture, and decorative lighting. Exterior environment should include landscaped trees, seating areas, and paved walkways. Add residents visible on balconies and people entering the building. Lighting should simulate natural daylight reflecting on glass surfaces and highlighting wood textures. Final result should be photorealistic architectural visualization in 8K resolution.

عمارة بواجهة حديثة متعددة المواد

PROMPT

Transform the residential building sketch into a multi-material modern apartment facade, while keeping the original architectural design exactly the same. Combine materials such as stone panels, metal accents, and glass balcony railings to create a sophisticated modern appearance. The entrance lobby should include marble flooring, modern seating, decorative lighting, and indoor plants. Exterior environment should include paved sidewalks, street lamps, trees, and subtle urban activity. Lighting should simulate bright daylight with realistic shadows and reflections on glass surfaces. Include people walking near the building and residents on balconies. Camera perspective should highlight facade material contrast. Final render should be ultra realistic 8K architectural visualization.

عمارة بواجهة حجر فاتح

PROMPT

Transform the uploaded sketch into a modern apartment building with light stone facade finishes, while maintaining the exact building structure and layout unchanged. Apply light beige stone panels with subtle horizontal patterns between floors. Balcony railings should be glass with metallic handrails. Design an elegant lobby interior with polished marble floors, decorative wall panels, and comfortable seating furniture. Add landscaped sidewalks, small trees, and street lamps around the building. Include residents standing on balconies and pedestrians walking near the entrance. Lighting should simulate soft daylight highlighting the light stone textures. Camera perspective should emphasize facade depth and building height. Final output should be ultra realistic 8K architectural render with photorealistic materials.

عمارة بواجهة فاخرة
مع إضاءة ليلية

PROMPT

Transform the residential building sketch into a luxury apartment building night-time render, keeping the architectural design completely unchanged. Apply elegant stone or composite facade panels combined with glass balconies and metallic accents. Interior lighting should glow warmly through the windows creating a lively residential atmosphere. The entrance lobby visible through glass doors should include marble floors, modern seating, and decorative lighting fixtures. Exterior environment should include street lamps, parked cars, landscaped areas, and pedestrians walking at night. Lighting should create dramatic reflections on glass surfaces and realistic shadows across the facade. Camera angle should be slightly low perspective emphasizing building height and lighting effects. Final output should be ultra realistic cinematic architectural night render in 8K resolution.

الفصل الثالث

المساجد

مسجد بتشطيب رخامي فاخر

PROMPT

Transform the uploaded architectural sketch of the mosque into a highly realistic architectural render while keeping the exact architectural design, proportions, domes, minarets, arches, windows, and layout completely unchanged. Only enhance the finishing materials and interior decorations. Apply luxurious white marble cladding across the exterior walls and courtyard floors with subtle natural texture variations. Interior prayer hall should feature polished marble floors, elegant prayer carpets aligned toward the qibla wall, decorative calligraphy panels, and soft golden lighting fixtures hanging from the ceiling. Add intricate geometric patterns on walls and arches while maintaining the original architectural structure. Exterior courtyard should include palm trees, stone paving, subtle landscaping, and people walking toward the mosque entrance. Lighting should simulate warm afternoon sunlight casting soft shadows across the marble surfaces and creating realistic reflections on polished floors. Camera angle should include a frontal perspective and a slightly elevated aerial view. Render style: ultra realistic architectural visualization, cinematic lighting, extremely detailed materials, 8K resolution.

مسجد بتشطيب حجر رملي

PROMPT

Transform the uploaded mosque sketch into a photorealistic architectural visualization while preserving the entire architectural structure and design exactly as it is. Apply warm sandstone facade cladding across the exterior walls and minarets, highlighting traditional Islamic architectural details. Interior prayer hall should include patterned carpets, wooden Quran shelves, decorative lantern-style lighting fixtures, and subtle calligraphy details around the mihrab area. The courtyard should feature stone paving patterns, water fountain elements, and landscaped palm trees. Add worshippers walking into the mosque to create a sense of life and scale. Lighting should simulate soft golden hour sunlight highlighting the warm sandstone textures and creating dramatic shadows along the arches and domes. Camera perspective should emphasize the mosque entrance and minaret height. Final output should be ultra realistic 8K architectural render with cinematic lighting and photorealistic materials.

مسجد بتشطيب أبيض تقليدي

PROMPT

Transform the mosque sketch into a traditional white mosque render while keeping the original architecture unchanged. Apply smooth white plaster finishes on exterior walls and domes. Interior prayer hall should feature elegant prayer carpets, simple wooden furniture, Quran shelves, decorative chandeliers, and soft warm lighting. The courtyard should include stone tiles, small trees, and people gathering near the entrance. Add subtle architectural lighting highlighting the arches and domes. Lighting should simulate bright daylight reflecting off the white walls and creating soft shadows. Camera angle should highlight the mosque facade and courtyard area. The final visualization should look like a professional architectural render created by a high-end visualization studio with ultra realistic materials and 8K resolution.

مسجد بإضاءة ليلية درامية

PROMPT

Transform the uploaded mosque sketch into a dramatic night-time architectural visualization while preserving the exact architectural design and structure. Apply elegant stone finishes on exterior walls and arches. Interior prayer hall lighting should glow softly through the windows creating a spiritual atmosphere. Add exterior lighting fixtures illuminating the domes, minarets, and courtyard pathways. Include worshippers walking toward the mosque and subtle urban surroundings. Lighting should emphasize warm golden tones reflecting on stone surfaces and creating cinematic shadows. Camera perspective should be slightly low-angle to emphasize the height of the minarets and domes. The final render should be ultra realistic, cinematic night architectural visualization in 8K resolution.

مسجد بتشطيب حديث مع زجاج

PROMPT

Transform the uploaded mosque sketch into a modern Islamic architectural visualization while keeping the original architectural layout unchanged. Apply a combination of light stone cladding and large glass panels around entrances and courtyard areas. Interior prayer hall should include modern lighting fixtures, elegant prayer carpets, minimalist wooden furniture, and decorative Islamic geometric patterns. Exterior courtyard should include landscaped gardens, water features, and paved walkways. Add people entering the mosque and walking through the courtyard. Lighting should simulate soft sunset lighting reflecting on glass surfaces and highlighting architectural details. Camera angle should emphasize the main entrance and overall mosque composition. Final render should be ultra realistic architectural visualization in 8K with cinematic lighting and photorealistic materials.

الفصل الرابع

الفنادق

فندق بتشطيب رخامي فاخر

PROMPT

Transform the uploaded architectural sketch of the hotel building into a luxury hotel architectural visualization while keeping the exact architectural design, structure, windows, entrances, and proportions completely unchanged. Only upgrade the finishing materials and interior design elements. Apply elegant polished marble cladding on the facade combined with large glass panels around the entrance area. Design a grand hotel lobby interior with glossy marble flooring, luxury seating areas, reception desk with decorative lighting, and tall indoor plants. Add realistic exterior surroundings such as paved drop-off zones, luxury cars arriving, palm trees, and decorative lighting around the entrance. Lighting should simulate warm sunset light reflecting on the marble surfaces and glass facade. Include guests entering the hotel and staff welcoming visitors to create a realistic atmosphere. Camera angle should emphasize the entrance canopy and building facade depth. Final render should appear as a high-end architectural visualization with photorealistic materials, cinematic lighting, and ultra-realistic 8K resolution.

فندق بواجهة زجاجية عصرية

PROMPT

Transform the uploaded hotel sketch into a modern luxury glass facade hotel while keeping the original architectural layout exactly the same. Apply reflective glass curtain walls across the facade with aluminum framing between floors. Balcony areas and windows should remain unchanged in position but enhanced with elegant materials. Design a modern hotel lobby interior with polished stone floors, minimalist reception desk, lounge seating areas, decorative lighting fixtures, and indoor plants. Exterior environment should include vehicles arriving at the entrance, landscaped areas, and guests walking toward the hotel doors. Lighting should simulate bright daylight reflecting on glass surfaces and creating realistic shadows across the building facade. Camera perspective should highlight the reflective glass facade and hotel entrance area. Final output should be ultra realistic architectural visualization with cinematic lighting and 8K resolution.

فندق بتشطيب حجر طبيعي

PROMPT

Transform the uploaded architectural sketch into a luxury hotel building with natural stone facade finishes while preserving the exact building form and architectural structure. Apply elegant stone cladding across the exterior facade with subtle variations in color and texture. The entrance area should feature a grand canopy, decorative lighting, and stone steps leading to the main doors. Interior lobby should include polished stone floors, comfortable lounge seating, decorative wall panels, and elegant lighting fixtures. Add realistic urban surroundings such as cars arriving, guests entering the building, and subtle landscaping around the entrance. Lighting should simulate golden hour sunlight highlighting the natural stone textures and creating dramatic shadows. Camera angle should emphasize the hotel entrance and facade materials. Final render should be photorealistic architectural visualization in ultra detailed 8K resolution.

فندق بإضاءة ليلية فاخرة

PROMPT

Transform the uploaded hotel sketch into a dramatic night-time hotel architectural render while keeping the original architecture completely unchanged. Apply elegant facade materials such as stone panels and glass windows. Interior lighting should glow warmly through the windows to create a welcoming atmosphere. Add exterior lighting fixtures illuminating the building facade, entrance canopy, and surrounding landscape. Include cars arriving at the hotel entrance, guests walking inside, and subtle city surroundings. Lighting should create dramatic reflections on glass surfaces and realistic shadows across the facade. Camera perspective should be slightly low-angle emphasizing the height and luxury of the hotel building. The final visualization should appear as a cinematic night architectural render in ultra realistic 8K resolution.

فندق بتصميم داخلي فاخر حديث

PROMPT

Transform the uploaded hotel sketch into a luxury modern hotel architectural visualization while maintaining the exact architectural design and building structure. Apply high-end facade materials such as composite panels, glass windows, and metallic accents. Design a spacious hotel lobby interior featuring marble floors, elegant reception desks, modern lounge furniture, decorative lighting fixtures, and indoor greenery. Exterior environment should include landscaped areas, drop-off zones, luxury vehicles, and people walking toward the entrance. Lighting should simulate bright daylight highlighting facade materials and creating soft shadows across architectural elements. Camera perspective should emphasize the main entrance and building facade. Final output should be ultra realistic architectural visualization with cinematic lighting and extremely detailed 8K render quality.

الفصل الخامس

المنتجات السياحية

منتجع بواجهات حجر طبيعي

PROMPT

Transform the uploaded architectural sketch of the resort buildings into a highly realistic resort architectural visualization while keeping the exact architectural design and layout unchanged. Apply natural stone cladding on exterior walls with wooden pergolas and glass railings on balconies. Interior spaces should include warm wooden furniture, comfortable lounge seating, decorative lighting, and natural textures that enhance the resort atmosphere. Surround the buildings with tropical landscaping including palm trees, gardens, stone pathways, and outdoor seating areas. Include guests walking around the resort and relaxing near the outdoor spaces to create realistic scale. Lighting should simulate warm sunset light casting soft shadows across the stone surfaces. Render with ultra realistic materials, cinematic lighting, and extremely detailed 8K resolution.

منتجع بواجهات خشبية

PROMPT

Transform the resort sketch into a photorealistic resort complex while keeping the original architecture exactly the same. Apply natural wood cladding on exterior walls and balconies combined with large glass windows. Interior areas should include wooden floors, natural fabrics, and cozy resort-style furniture. Add tropical vegetation, pools, wooden decks, and outdoor relaxation spaces around the buildings. Lighting should simulate bright tropical daylight highlighting the wood textures. Include guests walking and relaxing around the resort environment. Final result should be an ultra realistic architectural render in 8K resolution.

منتجع بواجهات بيضاء متوسطية

PROMPT

Transform the resort architectural sketch into a Mediterranean-style resort visualization while preserving the original design. Apply white plaster finishes on the exterior walls with wooden shutters and glass balcony railings. Interior areas should feature light wooden furniture, neutral fabrics, decorative lighting, and open airy spaces. Add palm trees, landscaped gardens, stone pathways, and swimming pools around the buildings. Lighting should simulate warm afternoon sunlight reflecting off the white walls. Render style should be cinematic and ultra realistic in 8K.

منتجع بإضاءة ليلية فاخرة

PROMPT

Transform the resort sketch into a dramatic night-time architectural visualization while maintaining the exact design. Apply stone and wood finishes across the buildings. Add warm lighting from windows and decorative landscape lighting around pathways and pools. Include guests walking through the resort and relaxing near outdoor areas. Lighting should create cinematic reflections on water surfaces and glass windows. Final render should be ultra realistic with dramatic night lighting in 8K.

منتجع بتصميم داخلي فاخر

PROMPT

Transform the resort sketch into a luxury resort architectural render while keeping the architecture unchanged. Apply elegant materials such as natural stone, wood panels, and glass railings. Interior spaces should include luxury lounge furniture, decorative lighting fixtures, and modern resort design elements. Add landscaped gardens, pools, and relaxation areas around the buildings. Lighting should simulate golden hour sunlight creating soft shadows and warm reflections. Output should be a cinematic ultra realistic 8K render.

الفصل السادس

الكوفي شوب

كوفي شوب بتشطيب خشبي

PROMPT

Transform the uploaded coffee shop architectural sketch into a photorealistic render while preserving the exact building design. Apply wooden cladding on the exterior facade combined with large glass windows. Interior space should include wooden tables, comfortable seating, decorative pendant lighting, and warm coffee shop atmosphere. Add outdoor seating with umbrellas and people enjoying coffee. Lighting should simulate natural daylight entering through the glass facade. Final render should be ultra realistic 8K architectural visualization.

كوفي شوب بأسلوب صناعي

PROMPT

Transform the coffee shop sketch into an industrial-style coffee shop render while keeping the architecture unchanged. Apply brick walls, concrete floors, and metal furniture inside. Exterior facade should include brick cladding and steel framed glass windows. Add customers sitting and baristas working behind the counter. Lighting should highlight industrial textures and create a cozy atmosphere. Final output should be ultra realistic 8K render.

كوفي شوب مودرن أبيض

PROMPT

Transform the coffee shop sketch into a modern minimalist coffee shop while preserving the architecture. Apply smooth white facade finishes and glass windows. Interior furniture should be modern with simple chairs, wooden tables, and decorative lighting. Add customers sitting and enjoying coffee. Lighting should simulate bright daylight highlighting the minimalist interior. Final render should be ultra realistic 8K.

كوفي شوب بإضاءة ليلية

PROMPT

Transform the coffee shop sketch into a night-time render while keeping the architecture unchanged. Apply warm lighting inside the shop and subtle exterior lighting highlighting the facade. Add customers sitting outside and enjoying coffee in the evening atmosphere. Lighting should create cinematic reflections on glass windows. Final render should be ultra realistic night visualization in 8K.

كوفي شوب فاخر

PROMPT

Transform the coffee shop sketch into a luxury coffee shop visualization while preserving the design. Apply elegant materials such as marble counters, wooden furniture, and decorative lighting. Add outdoor seating areas and people interacting in the environment. Lighting should simulate warm indoor ambiance and natural daylight. Render in ultra realistic 8K quality.

الفصل السابع

المطاعم

مطعم بواجهة حجر

PROMPT

Transform the restaurant sketch into a luxury restaurant render while keeping the architecture unchanged. Apply natural stone facade finishes and glass windows. Interior spaces should include elegant dining tables, decorative lighting, and luxurious materials. Add guests dining and waiters serving food. Lighting should simulate warm evening ambiance. Output should be ultra realistic 8K.

مطعم مودرن

PROMPT

Transform the restaurant sketch into a modern restaurant visualization while preserving the design. Apply glass facade and metal accents. Interior should include modern furniture, decorative lighting, and open dining space. Add guests dining inside and outside. Lighting should simulate natural daylight. Final render in ultra realistic 8K.

مطعم بإضاءة ليلية

PROMPT

Transform the restaurant sketch into a cinematic night-time restaurant render while maintaining the architecture. Apply warm lighting inside and decorative exterior lighting. Add guests dining and lively restaurant atmosphere. Output ultra realistic 8K.

مطعم خشبي

PROMPT

Transform the restaurant sketch into a wooden-themed restaurant visualization while keeping the architecture unchanged. Apply wood cladding on the facade and wooden furniture inside. Add guests dining and natural lighting through windows. Final render ultra realistic 8K.

مطعم فاخر جداً

PROMPT

Transform the restaurant sketch into a luxury fine dining restaurant render while preserving the design. Apply marble floors, elegant furniture, decorative lighting, and luxurious materials. Lighting should create dramatic evening atmosphere. Output ultra realistic 8K.

الفصل الثامن

مباني المكاتب

مبنى مكاتب
بواجهة زجاجية حديثة

PROMPT

Transform the uploaded architectural sketch of the office building into a highly realistic architectural visualization while keeping the exact architectural structure, windows, entrances, and building proportions completely unchanged. Apply a modern glass curtain wall facade using reflective glass panels combined with aluminum frames between floors. Interior office spaces visible through the windows should include modern desks, ergonomic chairs, indoor plants, and minimal office lighting. The building entrance should feature a clean glass lobby with polished stone flooring, reception desk, and seating area. Add urban surroundings including sidewalks, street lights, parked cars, and pedestrians entering the building. Lighting should simulate bright daylight reflecting on the glass facade and casting soft realistic shadows. Camera perspective should highlight the building height and modern facade. Final render should be ultra realistic architectural visualization with cinematic lighting and 8K resolution.

مبنى مكاتب بتشطيب حجر فاخر

PROMPT

Transform the uploaded office building sketch into a luxury office building render while preserving the exact architectural design. Apply natural stone facade panels across the building with subtle variations in tone and texture. Windows and balcony elements should remain unchanged but enhanced with dark metal frames. The interior lobby should feature marble flooring, decorative lighting fixtures, comfortable seating areas, and indoor plants. Exterior environment should include landscaped sidewalks, trees, and office workers walking near the entrance. Lighting should simulate warm afternoon sunlight highlighting the stone textures. Camera perspective should emphasize the main entrance and facade materials. Final output should be ultra realistic architectural visualization in 8K resolution.

مبنى مكاتب
مودرن بخامات متعددة

PROMPT

Transform the office building sketch into a modern architectural visualization while keeping the original structure unchanged. Combine facade materials such as glass panels, stone cladding, and metal accents to create a contemporary office building appearance. Interior office spaces should include desks, workstations, meeting rooms, and modern office furniture. Add surrounding urban context including sidewalks, cars, street lights, and pedestrians. Lighting should simulate natural daylight creating soft reflections on glass surfaces. Camera perspective should highlight the facade depth and building scale. Render quality should be ultra realistic with cinematic lighting and extremely detailed materials in 8K.

مبنى مكاتب بإضاءة ليلية

PROMPT

Transform the office building sketch into a dramatic night-time architectural render while keeping the architectural design unchanged. Apply elegant facade materials such as glass and stone panels. Interior office lighting should glow warmly through the windows creating an active night office atmosphere. Exterior lighting fixtures should illuminate the building entrance and surrounding landscape. Add urban surroundings such as cars passing by and pedestrians walking on sidewalks. Lighting should create realistic reflections on glass surfaces and cinematic shadows. Final render should be ultra realistic night architectural visualization in 8K.

مبنى مكاتب فاخر

PROMPT

Transform the office building sketch into a luxury corporate office building render while preserving the exact architecture. Apply high-end facade materials such as polished stone panels and glass curtain walls. Interior lobby should include marble floors, elegant reception desk, decorative lighting fixtures, and comfortable seating areas. Add business people walking near the entrance and subtle landscaping around the building. Lighting should simulate golden hour sunlight creating dramatic shadows and reflections. Final output should be ultra realistic architectural visualization in 8K resolution.

الفصل التاسع

المولات التجارية

مول بواجهة زجاجية

PROMPT

Transform the shopping mall sketch into a modern mall architectural visualization while keeping the exact building structure unchanged. Apply large glass facade panels combined with aluminum frames. Interior spaces visible through the facade should include escalators, shop entrances, decorative lighting, and shoppers walking around. Exterior environment should include parking areas, cars, trees, and pedestrians. Lighting should simulate bright daylight reflecting on glass surfaces. Render in ultra realistic 8K.

مول فاخر رخامي

PROMPT

Transform the mall sketch into a luxury shopping mall render while preserving the architecture. Apply marble facade finishes and decorative lighting around the entrances. Interior spaces should include luxury shops, escalators, seating areas, and decorative plants. Add shoppers walking and interacting inside and outside the mall. Lighting should simulate warm indoor ambiance and daylight outside. Final render ultra realistic 8K.

مول حديث

PROMPT

Transform the shopping mall sketch into a modern retail center visualization while keeping the design unchanged. Apply glass and metal facade materials. Interior areas should include escalators, shop displays, seating areas, and shoppers. Exterior should include parking areas and urban surroundings. Lighting should simulate bright daylight. Output ultra realistic 8K.

مول بإضاءة ليلية

PROMPT

Transform the shopping mall sketch into a night-time architectural render while preserving the architecture. Add warm lighting inside shops and decorative exterior lighting highlighting the facade. Include shoppers walking and cars arriving at the entrance. Lighting should create cinematic reflections on glass surfaces. Final output ultra realistic 8K.

مول مع مساحات خضراء

PROMPT

Transform the mall sketch into a modern mall surrounded by landscaped gardens while keeping the architecture unchanged. Add trees, green spaces, and outdoor seating areas around the building. Interior spaces should include retail stores and escalators. Lighting should simulate bright daylight highlighting greenery. Render ultra realistic 8K.

الفصل العاشر

المدارس

مدرسة حديثة

PROMPT

Transform the school sketch into a modern school architectural visualization while preserving the exact building design. Apply light facade materials such as painted plaster and glass windows. Add schoolyard areas, playground equipment, and students walking around. Lighting should simulate bright daylight. Render ultra realistic 8K.

مدرسة بواجهة حجر

PROMPT

Transform the school sketch into a school building with stone facade finishes while keeping the architecture unchanged. Add classrooms visible through windows and landscaped schoolyards. Lighting should simulate natural daylight. Render ultra realistic 8K.

مدرسة بيضاء

PROMPT

Transform the school sketch into a clean white modern school visualization while preserving the architecture. Apply white plaster finishes and large windows. Add playground areas and students walking. Lighting daylight realistic. Render 8K.

مدرسة صباحية

PROMPT

Transform the school sketch into a bright morning school scene while keeping the architecture unchanged. Add students entering the school and buses arriving. Lighting should simulate early morning sunlight. Render ultra realistic 8K.

مدرسة مع ساحات خضراء

PROMPT

Transform the school sketch into a school building surrounded by green playgrounds and gardens while keeping the architecture unchanged. Add trees, grass areas, and students playing. Lighting daylight realistic. Render 8K.

الفصل الحادي عشر

المستشفيات

مستشفى
حديث بواجهة زجاجية

PROMPT

Transform the uploaded architectural sketch of the hospital building into a highly realistic architectural visualization while keeping the exact architectural structure, layout, windows, and proportions completely unchanged. Apply a modern medical facility facade using reflective glass panels combined with light aluminum frames and clean white cladding elements. The hospital entrance should feature a covered drop-off area for ambulances and vehicles. Interior spaces visible through the windows should include reception areas, waiting rooms with seating, medical desks, and subtle lighting fixtures. Surround the building with realistic hospital environment elements such as ambulances, cars, trees, sidewalks, and people entering the hospital. Lighting should simulate bright daylight reflecting on the glass facade and creating soft shadows across the building. Camera perspective should highlight the main entrance and the building scale. Final output should be an ultra realistic architectural render with cinematic lighting and 8K resolution.

مستشفى بواجهة حجر أبيض

PROMPT

Transform the hospital sketch into a modern hospital architectural render while preserving the exact building design. Apply clean white stone facade panels combined with large glass windows. The entrance lobby should include reception desks, seating areas for visitors, and decorative lighting fixtures. Exterior environment should include ambulances parked near the entrance, landscaped sidewalks, and medical staff walking near the building. Lighting should simulate soft daylight highlighting the white stone textures and creating realistic shadows. Camera perspective should emphasize the hospital entrance and building facade. Final render should appear as a photorealistic architectural visualization in 8K resolution.

مستشفى
بواجهة بيضاء نظيفة

PROMPT

Transform the uploaded hospital sketch into a clean medical facility render while keeping the architecture unchanged. Apply smooth white plaster finishes combined with large windows and metal frames. Interior areas should include waiting rooms, reception desks, and minimal modern medical furniture. Add surrounding elements such as ambulances, cars, trees, and pedestrians. Lighting should simulate bright daylight highlighting the clean hospital environment. Final render should be ultra realistic architectural visualization in 8K.

مستشفى بإضاءة ليلية

PROMPT

Transform the hospital sketch into a dramatic night-time architectural render while preserving the exact architectural structure. Apply glass and stone facade finishes. Interior lighting should glow through the windows creating a realistic night hospital environment. Add ambulances with emergency lights near the entrance and subtle street lighting around the building. Lighting should create cinematic reflections on glass surfaces and realistic shadows. Camera perspective should emphasize the hospital entrance. Final render should be ultra realistic night architectural visualization in 8K resolution.

مستشفى فاخر حديث

PROMPT

Transform the hospital sketch into a high-end medical center architectural visualization while keeping the design unchanged. Apply premium facade materials such as polished stone panels and glass curtain walls. Interior lobby should include modern reception desks, seating areas, decorative lighting fixtures, and indoor plants. Exterior environment should include ambulances, vehicles, trees, and medical staff walking near the entrance. Lighting should simulate warm afternoon sunlight creating soft reflections and shadows. Final render should be ultra realistic architectural visualization in 8K.

الفصل الثاني عشر

المكاتب

مكتبة حديثة

PROMPT

Transform the library architectural sketch into a modern library render while keeping the exact architectural design unchanged. Apply glass facade panels and light stone cladding. Interior spaces should include bookshelves, reading tables, comfortable chairs, and warm lighting. Add people reading books and studying inside the library. Exterior environment should include trees, benches, and pedestrians. Lighting should simulate natural daylight entering through the windows. Final output should be ultra realistic architectural visualization in 8K.

مكتبة خشبية

PROMPT

Transform the library sketch into a warm wooden themed library render while preserving the architecture. Apply wooden facade elements combined with glass windows. Interior spaces should include large wooden bookshelves, reading tables, and cozy lighting. Add students reading books and studying. Lighting should highlight the warm wooden textures. Render ultra realistic 8K.

مكتبة مودرن

PROMPT

Transform the library sketch into a contemporary library architectural visualization while keeping the design unchanged. Apply modern materials such as glass panels, concrete walls, and metal accents. Interior areas should include modern bookshelves, digital reading areas, and study spaces. Lighting should simulate bright daylight. Render ultra realistic 8K.

مكتبة بإضاءة ليلية

PROMPT

Transform the library sketch into a night-time architectural render while preserving the architecture. Interior lighting should glow warmly through the windows revealing bookshelves and reading spaces. Exterior lighting should highlight the building facade and pathways. Add people studying inside the library. Final render ultra realistic 8K.

مكتبة كلاسيكية

PROMPT

Transform the library sketch into a classic style library visualization while keeping the architecture unchanged. Apply stone facade finishes and classical decorative elements. Interior spaces should include large bookshelves, reading tables, and elegant lighting fixtures. Add people reading books. Render ultra realistic 8K.

الفصل الثالث عشر

المباني العامة

مركز ثقافي

PROMPT

Transform the architectural sketch into a cultural center render while keeping the design unchanged. Apply glass facade and modern materials. Interior spaces should include exhibition areas, seating areas, and visitors walking. Render ultra realistic 8K.

مكتبة خشبية

PROMPT

Transform the library sketch into a warm wooden themed library render while preserving the architecture. Apply wooden facade elements combined with glass windows. Interior spaces should include large wooden bookshelves, reading tables, and cozy lighting. Add students reading books and studying. Lighting should highlight the warm wooden textures. Render ultra realistic 8K.

مركز مؤتمرات

PROMPT

Transform the sketch into a conference center architectural visualization while preserving the architecture. Apply glass facade panels and metal accents. Interior spaces should include conference halls and seating areas. Render ultra realistic 8K.

متحف حديث

PROMPT

Transform the sketch into a modern museum render while keeping the architecture unchanged. Apply concrete and glass materials. Interior spaces should include exhibition halls and visitors. Render ultra realistic 8K.

متحف كلاسيكي

PROMPT

Transform the museum sketch into a classical architectural visualization with stone facade and decorative elements while preserving the design. Render ultra realistic 8K.

قاعة معارض

PROMPT

Transform the sketch into an exhibition hall architectural render with glass facade and large interior spaces while keeping the architecture unchanged. Render ultra realistic 8K.

مركز مجتمع

PROMPT

Transform the sketch into a community center visualization with modern materials and landscaped surroundings while preserving the architecture. Render ultra realistic 8K.

قاعة احتفالات

PROMPT

Transform the sketch into an event hall visualization with elegant materials and decorative lighting while preserving the architecture. Render ultra realistic 8K.

مركز فنون

PROMPT

Transform the sketch into an art center architectural visualization with modern facade materials and gallery spaces while keeping the architecture unchanged. Render ultra realistic 8K.

مبنى معماري فاخر

PROMPT

Transform the architectural sketch into a luxury landmark building render while preserving the exact architectural design. Apply premium materials such as stone panels, glass facades, and metallic accents. Add surrounding landscape, pedestrians, and vehicles. Lighting should simulate dramatic golden hour lighting highlighting architectural details. Final output should be an ultra realistic cinematic architectural render in 8K resolution.
